

OVERVIEW
OF THE CAMBIUM CAMPUS

Cambium

Innovate to protect, train to act

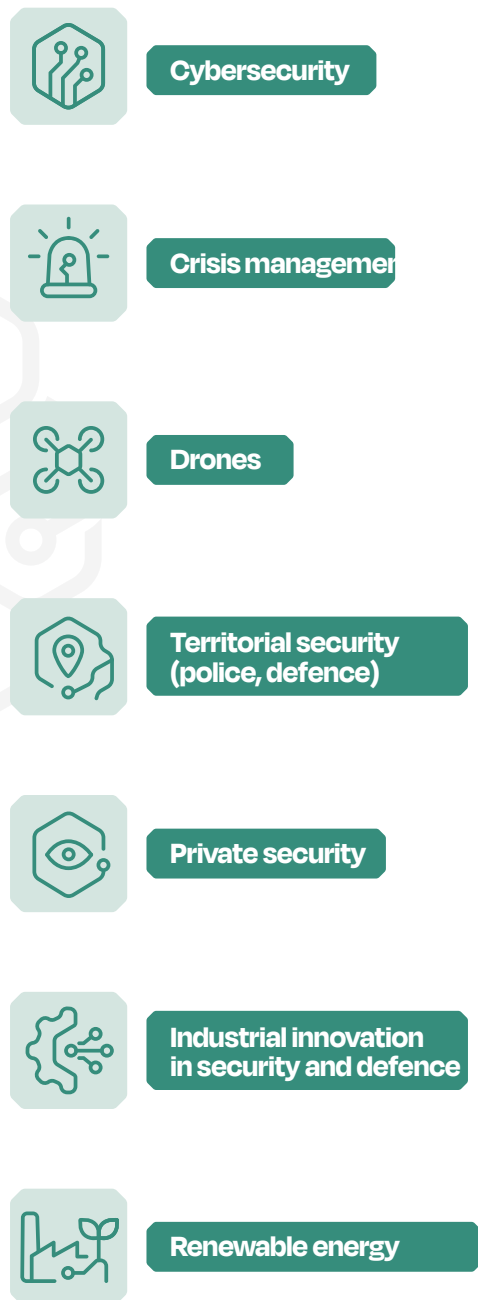

The campus dedicated
to tomorrow's security

Responding to new security challenges

In response to evolving threats – cyberattacks, hybrid crises, infrastructure protection and risk management – **Cambium** offers a unique model that combines training, technological innovation and public-private cooperation.

Located in the heart of the Vosges region, the campus aims to become a leading centre dedicated to the security continuum and digital sovereignty.

Challenges

Capacity

A campus designed for training, innovation and resilience

A campus built around three pillars

①

CAMBIUM TRAINING

Training tomorrow's security professionals.

Courses ranging from vocational qualifications to Master's degrees

Security continuum

Investigation hub

Immersive training

②

CAMBIUM TECHNOLOGIES

Developing security and sovereignty technologies.

Sovereign data centre

Sovereign cloud

Cyber-innovation

Testing

Grand Est region cyber campus

Artificial Intelligence

③

CAMBIUM ACCOMMODATION

At the heart of your stay. Providing accommodation, welcoming students and bringing the campus experience to life.

Trainees

Speakers

Partners

Secure residential campus for hosting delegations
(from companies or units undergoing training)

A governance model unique in France

A governance structure involving the French government, local authorities, private-sector stakeholders and a scientific and ethics committee.

Cambium

Train. Cooperate. Protect.

A strategic position at the heart of Europe
