

BE PART OF THE CAMBIUM
BUSINESS ECOSYSTEM

Cambium

Innovate to protect, train to act

Set up your business at the heart
of a unique campus dedicated
to security and sovereignty

Training • Innovation • Industry • Testing • Sovereignty

Why be part of Cambium?

An ecosystem designed for security and sovereignty stakeholders

Cambium offers a unique model that combines training, technological innovation, testing and cooperation between public and private sector stakeholders. Located in the heart of the Vosges, the campus aims to become a European hub focused on the future of security and the security continuum.

Companies that join the **Cambium** ecosystem benefit from a unique environment that encourages:

Operational synergies

Access to skills

Testing

Innovative project development

Cooperation with institutional stakeholders

Three pillars supporting innovation and industry

①

CAMBIUM TRAINING

Develop the skills of the future

Security continuum

Cybersecurity

Drones

Safety

Immersive training

Security

Rescue

②

Location near the campus

Remomeix: a strategic location

An environment designed for business and testing

Located close by the **Cambium** Campus, the Cap Vosges Remomeix business park offers the ideal environment for developing industrial and technology businesses focusing on security and sovereignty issues.

The site is strategically located in the heart of the Grand Est region, close to major European transport routes and cross-border markets.

Strengths

Fibre optic

Modular plots

Key road links

Near

Germany · Switzerland · Luxembourg

**Support
with getting set up**

**Security and defence
ecosystem**

An aerodrome a stone's throw from the business park

Saint-Dié-Remomeix Airport is just moments from the business park and the campus.

Open to public air traffic, it is an additional asset for businesses that need:

Fast access

Drone tests

Demonstrations

Light logistics

Training and technical applications

Cambium

Train. Cooperate. Protect.

A campus dedicated to tomorrow's security.
